Dear Edwin Rueda,

Thank you for your submission to The 2020 International Conference on Computational Science and Its Applications.

We are pleased to inform you that your paper, titled

"One-class SVM to identify candidates to reference genes based on the augment
of RNA-seq data with Generative Adversarial Networks"

has been accepted as LNCS PAPER with some modifications (see reviews) for presentation at ICCSA 2020
and publication on the Springer LNCS ICCSA 2020 Proceedings (published by Springer).

However, the acceptance and inclusion of your paper in the proceedings is conditional on ALL the
following requirements (please, read carefully):

1) REVISION. Your paper must be revised following all the reviewers' comments (if present).
   Take reviewers' comments into very careful consideration in making your final
   revisions.

2) CAMERA-READY PREPARATION. You must prepare the camera-ready version of your paper according to
   the detailed instructions for authors that can be found at:

   http://www.springer.com/computer/lncs?SGWID=0-164-6-793341-0

3) PAGE COUNT. The camera ready version of your paper (in PDF format!) must be no shorted than 10 pages
   and no longer than 16 pages including appendixes and figures, and the pages of your paper must be
   not numbered. If it is longer/shorter than the allowed limit, we will not be able to include it in the proceedings.

4) SUBMISSION OF THE SOURCE FILES RELATED TO YOUR PAPER(S) (deadline: June 23, 2020)
   Camera ready version of your paper in PDF format AND ALL SOURCE files must be submitted, by June 23, 2020
   (hard deadline), through the electronic submission page:

   https://ess.iccsa.org/

   You should connect to your personal page. For all accepted papers you will find the button
   "Upload Camera Ready and Source files". Click on the button and the submission page will open.

5) SUBMISSION OF SIGNED COPYRIGHT TRANSFER FORM: In addition to the electronic version of the source files,
the
publisher needs a signed hard copy of the Copyright Transfer Form. Download it from:
   http://www.iccsa.org/pre-filled-copyright-form

   Please complete, sign and upload it on your personal page available in the electronic submission system at your
   earlier convenience (clicking on the "Upload Copyright Transfer Form" button).

   Your copyright form must be received NO LATER THAN June 23, 2020.

   Details for filling the Copyright Transfer Form will be available at the Conference web site:
   http://www.iccsa.org/proceedings

6) CONFERENCE REGISTRATION (deadline: June 23, 2020): On your personal page available in the electronic
   submission system you will find the button to register for attending the conference and for
   paying the Registration Fee.
   Each paper/poster included in the Proceedings has to be associated to a registrant.
   The allowed payments methods are: wire transfer (it requires time, so proceed as soon as possible) or
   credit card.
   For details related to the procedure and costs please visit http://www.iccsa.org/registration-info.

Please, be sure to follow ALL the instructions above very carefully in order to have your paper included
in the proceedings. When the conference program will be finalized, it will be published on the Conference
site, where you'll be able to find instructions about the presentation of your paper.

Please, acknowledge receipt of this notification ASAP to the e-mail lncs@iccsa.org.

Congratulations on having your paper accepted.
We look forward to seeing you in Cagliari, Italy,

  Best Regards,

 Osvaldo Gervasi, Ivan Blecic and Bob Apduhan   David Taniar, Beniamino Murgante, Chiara
Garau and Ana Maria A.C.~Rocha
 General Chairs of ICCSA 2020   Program Chairs of ICCSA 2020

1st reviewer's review:

        >>> Readability <<<
Very Good
        >>> Originality <<<
Very Good
        >>> Significance <<<
Very Good
        >>> Relevance <<<
Very Good
        >>> Rating <<<
Very Good

        >>> Comments for the authors <<<
The topic is very relevant and applicable as a contemporary subject matter
focusing on Gan and SVM. The paper has a clear outline and language.

Authors can insert the motivation part and add a part in which they a
comparative analysis with the previous related works. If possible, up to date references (2019,2020) be added.

        >>> Points in favour or against <<<
(+) Points in favor are those as mentioned in the "comments for the authors"
section.
(-) NA

2nd reviewer's review:

        >>> Readability <<<

Very Good
          >>> Originality <<<
Very Good
          >>> Significance <<<
Acceptable
          >>> Relevance <<<
Very Good
          >>> Rating <<<
Very Good

          >>> Comments for the authors <<<
The paper presents a new approach to identify in-silico candidates for reference genes using GAN model.

The contribution seems well written and original.
Reference genes (RG) should be Reference Genes.
Please check references as they appear in the text
